## ABOUT CYBER SECURITY:

Cyber security refers to every aspect of protecting an organization and its employees and assets against cyber threats. As cyber-attacks become more common and sophisticated and corporate networks grow more complex, a variety of cyber security solutions are required to mitigate corporate cyber risk. The number of unfilled worldwide cyber security jobs grew by 350 %, from 1 million positions in 2013 to 3.5 million in 2021. India alone is expected to have more than 1.5 million job vacancies in cyber security by 2025.

## OBJECTIVE OF THE WORKSHOP

Cyber security is the globally emerging field in view of worldwide job opportunities. This workshop will provide unique platform of its own kind, where the beginners, as well as trained participants, can grab ample opportunity to familiarize themselves about the emerging issues & Challenges as well as Career Opportunity in the field of Cyber Security.

**Eligibility:** Anyone interested in Cyber security can participate in this event.
